

Technology Hiring Solutions

Remotely hire tech talent anywhere, faster

SHL's technology hiring solutions boost tech recruitment by automating the assessment process with AI and delighting candidates and hiring managers every step of the way.

Attract candidates with a remote, immersive coding experience and significantly increase speed to hire.

Reach more candidates

Save hiring managers time

Increase speed to hire

SHL.

Lock-in tech talent without compromising quality

Our unrivalled portfolio of predictive coding assessments and interviews reduce the hiring manager workload and enable you to accurately assess tech potential remotely. And unlike other assessment providers, we do not screen out great potential.

Cast your tech talent net wider by attracting more quality candidates and use powerful AI to halve the time to hire.

Coding Simulations: Find up to 45% more qualified developers using AI

Use AI to faster evaluate programming capabilities in an intuitive online coding environment, available with 50+ languages

Technical Skills: Evaluate over 250 technical concepts

Screen candidates with our deep and continuously updated catalogue of technology tests for Front-end, Back-end, DevOps, Data Science, Full stack, and more.

Live Coding Interviews: Hire the best developers in half the time

Increase the rigor and impact of technical interviews with interactive whiteboards and evaluator collaboration.

Immersive Candidate Experience

Enable candidates to learn more about your business and share experiences of previous tech recruits.

Our results speak for themselves:

Reach quality candidates

SHL identified **45%** more suitable candidates than other assessments.

Save hiring managers time

A giant **10,000** hours were saved of tech team time.

Increase speed to hire

We made the time to hire quality talent **60%** faster.

Leading the way in talent innovation.

SHL's tech hiring solution provides rich AI insights that help you make data-driven hiring decisions and hire the right tech talent faster.
