

# SHL Verify Interactive – Numerical Calculation

## Assessment Fact Sheet

### Overview

The Verify Interactive suite of assessments, including Numerical Calculation, is a set of assessments designed using mobile-first technology. These assessments offer an interactive, business-relevant approach to predict workplace performance using engaging, activity-based assessment design that can be deployed on any device type, including mobile phones.

SHL Verify Interactive - Numerical Calculation test measures a candidate's ability to work with numbers and use appropriate mathematics in different situations.

The Verify Interactive – Numerical Calculation test utilizes computer adaptive technology, offering the following benefits:

- Shorter testing administration times
- Ability to offer the test in an unsupervised setting
- A more precise score

Job Family/Title ..... Verify

### Details

Allowed Time (minutes)..... 10 minutes

Maximum Number of Questions ..... 12 questions

Number of Sittings..... One

Designed for Unsupervised Environment ..... Yes

Question Format..... Interactive / Activity-based,  
Adaptive

Product Category ..... Ability & Aptitude

## Knowledge, Skills, Abilities and Competencies Measured

The Verify Interactive Numerical Calculation test measures a candidate's ability to work with numbers and use appropriate mathematics in different situations. The Numerical Ability test requires candidates to understand order of operations, perform numerical calculations, and identify errors in calculations. The Numerical Calculation test, though it is adaptive, is ideal for entry-level jobs that require completing simple numerical calculations quickly and accurately.

## Example Question
